PROFILE

Recent graduate with a strong background in React.js, MERN stack and web design. I'm excited to start my career in software development, applying what I've learned in a dynamic work environment.

I know React.js well, and I understand Node js ,Mongo db and web design. I'm always eager to learn and stay updated with the latest trends. I'm particularly interested in making websites look good and work smoothly.

I'm looking for a opportunity where I can use my coding skills to work on interesting projects. I want to keep learning and be part of a friendly team. I'm ready to bring my energy and dedication to make a positive impact.
